RANKING SYSTEM
COMMUNITY GUIDELINES

HOW THE SYSTEM WORKS

Your final ranking score combines three core progression categories. The core is capped at 10,000 points. Notable PvM drops and completed raid Collection Logs are added afterwards, so the final score can exceed 10,000.

3,000	3,000	4,000
SKILLING	BOSSING	COMBAT ACHIEVEMENTS
Total Level	Efficient Hours Bossed	Weighted by difficulty

FINAL SCORE = min(Skilling + Bossing + Combat Achievements, 10,000) + Notable PvM Drops + Completed Raid Logs

CORE RULES

- 10,000 is the maximum core score, not the maximum final score.
- A notable item's bonus is awarded once for qualifying ownership; duplicate copies do not repeatedly award points.
- Only items specifically listed in the notable-drop tables receive an item bonus.
- A complete Chambers of Xeric, Theatre of Blood or Tombs of Amascut Collection Log awards +400 points.
- The Oathplate shard milestone requires 450 shards before its 65-point bonus qualifies.
